Disclaimer: The Statement of Purpose for NACPET website: This is an "Association." Membership provides discounts and advertising opportunities for professionals, business and accredited schools. Such are listed on our website under "Members Benefits/Certification". Our certification is specified under "Certification Resources." We do not certify anyone to become counselors or therapists. NACPET as a business is an "Association," and all professionals are certified by proper schools, colleges, universities and approved as professionals by the proper state and or national boards. They must be a Licensed Mental Health Professional to provide these services; with the exception of Addiction, they must be certified by a State Approved Board. NACPET in itself does not practice any types of therapies. Our goal is to maintain and add credibility to this approach to counseling, which will ensure public safety; and enhance scientific research. Terms "Membership" and "Association" are best described here: <http://www.thefreedictionary.com/membership> <http://www.thefreedictionary.com/association>

National Association of Certified Professionals of Equine Therapy (NACPET, Inc)

The National Association of Certified Professionals of Equine Therapy (NACPET, Inc), founded as a non-profit in 2008, is the ONLY Board that certifies Equine Assisted Counselors and Therapists (CEAC/CEAT) and Specialized Horse Professionals/Equine Specialists (CES).

PURPOSE

We certify Specialized Equine and Equine Assisted Counseling Professionals to ensure the highest standards and safety in the Equine/Health Care fields, and provide appropriations for scientific research, at risk youth, low-income children, veterans, and Native Americans to advance the development of this modality worldwide. The Certification process provides public assurance that certified professionals are held to and demonstrate the highest levels of experience, training, safety, continued education and ethics.

VISION

Our vision is to become the standard in Equine Assisted Counseling/Therapy (EAC/EAT), to ensure direct, clear, and concise guidelines for professionals to follow. Furthermore, we are working to improve the professionalism, ethics, and standards in this practical approach to counseling. We hope to bring attention to the benefits of using horses in counseling sessions, by certifying professionals that have a love for people and horses. Intertwining the two will lead to profound experiences for clients, giving them a lasting gift to support their emotional growth for the rest of their lives.

OPERATIONS

Our operations include, but are not limited to: certification of licensed Mental Health/Chemical Dependency Counselors & Therapists as Equine Assisted Counselors/Therapists (CEAC/CEAT) and the certification of Equine Professionals with a formal education in Equine Studies/Animal Sciences and/or years of experience in the Equine field as Equine Specialists. Accreditation (NACPET) and dual accreditation (NACPET & CTHA) for facilities utilizing certified staff and/or horses is also available. Annual membership is required for all certified professionals and these funds help with the operations of the organization, including appropriating grants to other organizations for EAC/EAT growth, scientific research, and no cost services to at risk youth, veterans, Native Americans, and low income children.

CERTIFIED THERAPY HORSE ASSOCIATION (CTHA®™)

The National Association of Certified Professionals of Equine Therapy works in conjunction with the **Certified Therapy Horse Association (CTHA®™)**, which is the only certifying board for the third professional in EAC/EAT, the **Therapy Horse**. Both organizations provide appropriations for scientific research in the field and a variety of support and prevention programs for specific populations who can benefit from Equine Assisted Counseling/Therapy. While providing for the humane treatment of Therapy Horses, CTHA's certification process protects the safety and interests of professionals and clients in Equine Assisted Counseling/Therapy by providing a system of documentation, communication, and inspection that mandates prerequisite and continued training, regular vet checks, maintenance of health/feed records, the posting of personal rights for complaints, incident reports, unannounced inspections, complaint investigations, and collaboration with other Governing Boards. The standards and ethics that each professional must meet and maintain in this scope of practice will prevent neglect and casualties, which are costly and can result in the suspension and/or loss of certification for Equine Professionals, as well as notification to their license/certification boards in Mental Health and to the SPCA.

INTRODUCTION

Equine Assisted Counseling/Therapy is an emerging field in which Certified Therapy Horses are used as significant partners in collaboration with Certified Equine Assisted Therapists/Counselors and Certified Equine Specialists to stimulate growth and development for all individuals and/or groups that have the desire to grow emotionally, mentally, physically and spiritually. It addresses a variety of mental health and human development needs. Note: Must be a licensed mental health professional to provide these services; with the exception of Addiction, you must be certified by a State approved board.

EAC/EAT is client-centered and provides hands-on opportunities to experience new solutions and to develop healthy coping skills and tools for effectively realizing and managing internal happiness. This practical approach promotes the exchange of unhealthy behavioral and communication patterns for successful ones, revealed through immediate cause and effect situations. Clients are challenged in a non-threatening and innovative manner, using a method proven to rapidly break down defense mechanisms that interfere with growth and development. EAC is considered "Brief Counseling." It is an intensive, short-term counseling approach that effectively stimulates long-term change. Skills that individuals and groups acquire during Equine Assisted Counseling/Therapy include: self-esteem strategies, and healthy risk taking fears and awareness. Each EAC/EAT session is conducted by 3 professionals: the Equine Assisted Therapist/Counselor, the Horse Professional, and the Horse; all of whom should be appropriately trained and Certified.

The Certification of Equine Assisted Therapists/Counselors and Equine Specialists is the first area of importance to NACPET. We have 2 types of certification available including the certification of Health Care Professionals who are State Licensed or Certified as a Counselors/Therapists as Certified Equine Assisted Counselors/Therapists (CEAC/CEAT), and the Certification of Horse Professionals who specialize in Equine Assisted Counseling, or any specialized Equine field, as Certified Equine Specialists (CES).

CERTIFIED EQUINE SPECIALIST

This Certification Manual will guide Equine Professionals who have years of experience in the Equine field they specialize in and/ or a designated level of formal education in Equine Studies and/or Animal Sciences through the process of becoming Certified as an Equine Specialist (CES). Equine Professionals who do not specialize in Equine Assisted Counseling may apply for Certification as a specialist in any Equine field. Applicants must have 60 hours of formal education at an accredited college level institution, (each hour of which may be substituted for 167 hours of work experience). Applicants for CES who specialize in Equine Assisted Counseling must have undergone training in Equine Assisted Counseling by EAGALA, NARHA, O.K. Corral, or another approved training organization in addition to having conducted 1000 hours of supervised Equine Assisted Counseling sessions for level I certification, and 4000 hours for level II certification. Applicants who are specializing in any other Equine Field must have 1000 hours of work in the field they specialize in for Level I Certification and 4000 hours for level II certification. It is not required to be Level I Certified to apply for Level II certification. Testing, which is administered online, is also required for certification. All applicants must maintain annual membership with NACPET.

Level I and Level II Certification must be renewed every two years to ensure that practicing CESs are current with trends in the field and maintain an appropriate level of experience. Renewal applicants must document either 40 hours of Continued Educational Units (CE's) in the Equine field they specialize in, or 600 hours of work in the Equine field they specialize in within the past 2 years.

Applicants for CES certification who have not yet fulfilled the contact hours required in their field of specialty can apply for Associate status with NACPET, using the Certification Manual for Certified Equine Specialist Associate (CESA). An Associate is an intern who is in the process of accumulating the minimum amount of documented hours of work required for certification as a CES Level I. Applicants will have two years to complete the requirements, after which their Associate status must be renewed if they are not yet prepared to apply for Certification. The cost of registering as an Associate goes directly toward the cost of Certification unless your internship expires.
